School are looking to spend money raised from Friends events to benefit all children. For example, visits from fun Maths, history or science Workshops; theatre groups; music equipment; new tables and chairs to support the school and your children and much more!

It was agreed at the meeting that above events can only continue to go ahead if more support from others is available. Therefore, each Year Group has been asked to provide a representative who will be able to be the first point of contact when events are being planned. These reps will then ask for a few volunteers to help them before or on the day! This hopefully will spread the load for everyone and help organisers also enjoy fundraising and social events!

I will volunteer to be a Class Rep.
